Committee: Senate Committee On Rules
Measure: SB1094

I wholeheartedly support this movement for the Secretary of State to secure federal grant money to protect the election integrity of our state. I think SB 1094 is straightforward and commonsense. We should have transparency and accountability for one of our most precious and sacred rights - the right to vote as American Citizens. Knowing that ballot boxes are being going to be monitored and filmed and that ballot counting will be monitored and recorded will grant peace of mind to every Oregonian. I applaud your efforts to move this forward. Thank you.
