Measure: HB2410

this area is in desperate need for entertainment for children and families. summer is one thing but when the weather is terrible and all our kids want to do is swim we should not have to rent a hotel room just for them to do so. I grew up swimming in the ontario pool and i firmly wish that my son could do the same. our kids are exposed to so much more than my generation ever has been and having one more thing to help bring them back to being a child would be crucial. I know with no doubt in my ,id that this community would 1000% support the decision to re open and update the pool. I am very aware that there are some very extreme renovations that need to be done but in my mind and a lot of fellow citizens of this society that it would be a beneficial way to spend money.

How much of this community has been broke down and shut down because of lack of support and care?? This pool should not be one of them. I firmly believe that we will figure this out and i know at least 100 people off the top of my head that would be extremely disappointed if this did not happen.

Please have consideration for this community when this decision is made.
