

Submitter: Taylor Conlon

On Behalf
Of:

Committee: House Committee On Emergency Management, General
Government, and Veterans

Measure: HB2410

To whom it may concern:

There is much need and very much desire for a quality pool location in the immediate vicinity of Ontario. This pool project will open opportunity for jobs, recreation, and community. Many individuals would benefit from the physical aspects as well as making friends and potentially learning how to save lives in life guard positions. The public as a whole would benefit greatly from individuals' gains and thus creating a more cohesive community.
