Committee: House Committee On Emergency Management, General  
Government, and Veterans

Measure: HB2410

The Ontario Recreation Department is in dire need of additional funding. We are one of the poorest counties in Oregon and need to ensure we create opportunities for all residents of our community. The additional resources this bill would provide would allow our community to reap major benefits in creating a “hub” for recreation. We need the funds as we are diligently fundraising but are struggling to gain enough funds to complete any additions or long term maintenance to our facilities. We need the support!
