

I oppose this measure. Both professional and personally I have seen the effects of the City, County and States inability to do their job. I have rights too but those seem to have been forgotten. The homeless are committing crimes and being held to a different standard than hard working, law abiding, tax paying citizens. We are already being penalized by adding additional security measures, paying for clean ups and being taxed in Metro. Enough is enough. Housing First does not work. You have a drug and mental health crisis.
