Committee: House Committee On Housing and Homelessness

Measure: HB3501

HB 3501 will again allow camping on our streets without a real plan to provide the services these people need. This is a kick the can down the road bill that does not think through the implications of it's mandates. We cannot continue to decriminalize activities because we do not have the surfaces to support Oregon voters and citizens. This bill will do the opposite it is intended to do which is to humanize people. They will be treated like wild animals without the support they need.
