

Submitter: Ashley Corey

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: HB2756

I live in Metzger and we cross Hall Blvd every school day, often by bike. It is a bumpy and uneven intersection for now although work has begun on the crosswalk areas. I also drive Hall often and it is certainly one of the least maintained streets in our area. I would like better oversight and maintenance on it for safety of cars, pedestrians and bikes and I believe the city of Tigard will be able to do this.
