

Submitter: Nick Flowers

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: HB2756

I support the transfer to the City of Tigard so that the City can install protected bike lanes to support active transportation. This will encourage travel by bicycle through the creation of travel facilities that feel safe for people on bicycle. Creation of these safe spaces is ESSENTIAL to getting more people traveling by bicycle. To protect the environment, to get more people active, to create safe, more enjoyable spaces, I support this transfer measure.
