This is tyranny and the second is what the people were given to protect themselves from evil tyranny....You must think the people are very stupid, Illegal laws from an illegal party mean nothing....When XI gets done using Soros will he sleep with the fishes.... The extremist lives in total fear a fear like no other a fear that has manifested into killing the perceived threat...our nation is under attack and the second isn't about hunting....The left is no more only extremist radicals that want America defenseless.
