

Submitter: David Greenberg

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: HB2756

We have lived at current address near SW 82bd and SW Taylors Ferry for in Washington county for coming up on 23 years. We travel up and down Hall Blvd on an almost daily basis and it is long overdue for significant work. The road is unsafe for both drivers and pedestrians. The abundance of potholes and the lack of sidewalks make them a danger all of us who use this key transportation artery. After years of my taxes going to fix other roads in the state it is about time for some them to be used locally.

I urge the Joint Committee on Transportation to support House Bill 2756.

Best regards,

David Greenberg
