

Submitter: Alan Eckert
On Behalf Of: Self
Committee: Joint Committee On Transportation
Measure: HB2793

Local jurisdiction of frequently used roads that are no longer the main highway is very important for each community to be able to better plan and maintain their visions. Tigard should be able to have more flexibility for how SW Hall Blvd is utilized and revised. The major issue facing the transfer is the postponed or deprioritized maintenance from ODOT over the years, which showed misalignment with the plans that the City of Tigard would have preferred. ODOT should still bear the brunt of this maintenance and upkeep that they unfortunately felt were less worthy of funding and focus as part of this transfer process.
