

Submitter: Justin Bennett

On Behalf Of:

Committee: House Committee On Rules

Measure: HB2572

How can we expect to teach firearm safety to children with the way this bill is written? The first line of the bill says that it would be unlawful to teach someone how to use a firearm. Later on it says that fish and wildlife and law enforcement are exempt? What a poorly written bill. Again you are doing everything to try to restrict your constituents CONSTITUTIONAL RIGHTS! I am in complete opposition of this bill because of this. You won't do anything for the law breaking ANTFIA, or BLM, but you want to continue to try to restrict law abiding citizens.
