

Submitter: Charles McConnell  
On Behalf Of:  
Committee: House Committee On Revenue  
Measure: SB1012

We had lived in our house on be Little North Fork since 1987 prior the fire. Part of planning for retirement included our hard earned lower property tax. The increase in taxes is nothing we could imagine happening at this stage of our lives. It feels as if it is kicking someone when they are already down. Please support this bill.
