Measure: HB2572

I oppose HB 2572 as it just might be unconstitutional after passage and waste more tax payer money. It is very disappointing that our elected officials spend the people's resources foolishly pursuing legislation that will only apply and eventually hurt the law abiding citizen of this once great state. When the state representatives and legislators and governor sat idle when the streets and structures of Portland, Eugene, and several other cities were vandalized a few summers ago, we do not need to pass legislation that will only hurt those that follow the law. Most of these actions that were indorsed and approved by the State of Oregon by inaction, in my opinion, are already illegal and I am pretty sure passed in a legislative session similar to today. The question is... why did the powers that be not do anything then? Lets try something new... lets try enforcing the laws that we already have created and not worry so much about putting the boots the those of us that follow and respect the law.
