

Submitter: Joshua Paullus

On Behalf Of:

Committee: House Committee On Rules

Measure: HB2572

HB2572 is overreaching it violates the first amendment, second amendment and 14th amendment. You cannot create a law that will protect lawful citizens from citizens that commit crime. Human behavior is unpredictable and uncontrollable and by infringement of lawful citizens and their rights will only lead to a greater separation of the people and the state. The most appropriate law you can make are laws that make the most severe punishments for individuals that use a firearm or incendiary device in the commission of committing a crime. Put logic back into legislation!
