Measure: HB2572

I oppose this bill because I foresee it violating the 1st and second amendment more so on the second amendment. At first hearing this I thought to myself who wants " who wants terrorists at their door and finally we can hold ANTIFA accountable". But then I thought about the 2nd amendment and how the far left has been attacking it religiously here lately and realized that this can be used against law abiding gun owners as well for any kind of assembly they hold. The first part of the second amendment states " a well-regulated Militia. And if you take that text for what it means and when it was written it does not mean the government shall have a well regulated Militia it's the right of the citizens to be a well regulated Militia. The constitution was written right after a war where citizens not government soldiers but citizens that picked up arms and overthrew a tyrannical government that's why they called them citizens soldiers. and when our forefathers wrote the constitution they had that in mind because they are the ones that were a part of that overthrow. I say we in force the laws that are already on the books that prevent terrorists and bodily harm and murder and we will find that this will come to an end.

A well regulated Militia, being necessary to the security of a free State, the right of the people to keep and bear Arms, shall not be infringed.

In closing I would rather live with dangerous freedom than to live in peace slavery
