

Submitter: Michael Hendrickson

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: HB2756

I live less than a mile from Hall Blvd and use it daily to drive / bike / walk. This road is in various states of repair and is abysmally difficult to travel on be it walk / bike / drive due to lack of maintenance, lack of bike lanes, and lack of sidewalks. This is an important road for the City of Tigard because it cuts across the city connecting Beaverton to Cook Park. By transferring this road to the city of Tigard, it will allow ODOT to take care of other roads within the state and allow Tigard to control how this road best fits within the city. Transferring Hall Blvd to Tigard will be a livability / economic benefit to all the users of Hall Blvd.
