On Behalf Of:

Committee: Joint Committee On Transportation

Measure: HB2756

Hall Blvd is a major thoroughfare that I use to get around on both bicycle and motor vehicle. As I pass through, I notice the major lack of pedestrian safety on top of the bicycle safety that are prevalent through Tigard's portion of Hall Blvd. There are pot holes everywhere in both bicycle and vehicle lanes. No sidewalks, or if they are there they are inadequate. Lighting is inadequate in the dark months. All these issues have led to pedestrian fatalities. More than just Tigard residents use this thoroughfare, and everyone deserves better.
