RE: SUPPORT THE FAMILY PRESERVATION PROJECT/HB 2731

Dear Co-Chairs Steiner and Sanchez and members of the Committee,

Please fund the Family Preservation Project/HB 2731. The bill creates in statute and funds the Family Preservation Project (FPP), which mitigates the impacts of parental incarceration on kids in Oregon that have a parent in prison. The program also secures almost a dollar-for-dollar match from private funds AND saves the state at least that much in other costs related to incarcerated moms and their children.

FPP has impacted the lives of thousands of Oregon mothers and children, providing services to help incarcerated women and their children overcome cycles of poverty, trauma, and intergenerational involvement in the criminal justice system.

I support FPP, because I believe they're doing the work that no one else can. They are helping these mothers and children defend their family unit throughout incarceration, helping them to create and maintain healthy and supportive relationships within the family.

Lastly, there are many associated costs to the state when we do not intervene for infants born to mothers in custody or for children of incarcerated parents. Having a parent in prison significantly impacts a child's mental health, social behavior, and educational outcomes. There are no established safety nets to catch this often invisible, but growing population of children in our state. We must do better.

Funding FPP ensures fewer children are placed in foster care, incarcerated moms are less likely to go back to prison, and children of participants are exhibiting successful outcomes academically, socially, behaviorally, and emotionally.

Thank you for your leadership and for your commitment to Oregon. Please support HB 2731 so that these critical supports and services do not go away.

Sincerely,

Jefferey Schultz

Portland, Oregon
