I fully support POP 132. We are in DIRE need of DSP's. They are uniquely trained to provide a level of support that is comparable to nobody else. They are specifically trained to be a little bit of everything, while thinking on their toes and changing course multiple times in a day. They are a little nurse, cook, maid, coordinator, confidant, emotional support, technical support, skills coach, and the list goes on. Please support this cause, the alternative will be devastating!
