

Submitter: Anna Lim

On Behalf Of:

Committee: Joint Committee On Ways and Means

Measure: SB5506

Food is a human right and immigration status and race shouldn't be barriers to accessing food assistance. Every single person deserves the dignity of being able to eat, and immigrants shouldn't be an exception. It is imperative that we do right by our neighbors and ensure their ability to feed themselves and their families. When immigrants are able to thrive, it creates a greater sense of harmony and community. Who knows what greatness we could achieve if we only cared about our neighbors as much as ourselves. I implore you to do the right thing and vote yes on SB 610.
