

Submitter: William Worden

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: SB422

I've been riding for over 2 years, I've seen several riders rear-ended by automobiles of all kinds while at stop lights and stuck in traffic. The fact is, to many people play on their phone and drive. Lane splitting keeps us beside vehicles instead of between bumpers. It's just safer. I've nearly been rear ended several times and I'd like to survive instead of being someone's bumper sticker. Receiving a ticket over a safety concern is a bit ridiculous.
