

Submitter: Robert Miller

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: SB422

As a motorcycle rider and a 20 year Firefighter (Currently a LT.) for the largest fire department in the state, I fully support lane splitting. There are several reasons to allow this practice, one of which is surrounding states already allow it. My personal motorcycle is air cooled, sitting in traffic does long term damage to my air cooled engine. When done safely, lane splitting allows motorcycles to travel through stopped or slow moving traffic. This helps lessen the amount of traffic and keeps the riders safe. There are countless numbers of rear end accidents during times of traffic. These are typically non injury or minor injury incidents, except when motorcycles are involved. Please support and vote in favor SB422
