

Submitter: Robert Waterhouse

On Behalf Of:

Committee: House Committee On Rules

Measure: HB3414

Oregon's land use system has kept our state free of the of the kinds of unregulated development that has become a curse in states like Texas. While Oregon has an urgent need for more housing, HB 3414 would allow housing developers to obtain an unlimited number of variances from a vast array of land use planning regulations without any commitment to lower housing costs or increase housing capacity. HB 3414 is a giveaway to housing developers at the expense of our communities and environment.

There are better ways to address Oregon's housing crisis.
