

Submitter: Suzanne Meckel

On Behalf Of:

Committee: House Committee On Rules

Measure: HB3414

I oppose this measure as it will adversely impact the livability of communities and will not produce the intended housing production or type of affordable housing needed. I believe that this bill would create many unintended negative consequences.

As a fourth generation Oregonian I would hope that the committee would step back and work with local governments and community leaders to create an innovative solution that be acceptable to all Oregonians.
