

Submitter: Colton Cabler

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: SB422

Safety first! That's what I have always been taught through school, boy scouts, and working in construction. Safety first is what this bill delivers to the thousands of motorcyclists in Oregon. These motorcyclists are recreational users, enthusiasts, weekend riders, vacationers, couples, families, and lots of commuters. Studies show how much safer it is for these riders to be able to lane split where applicable. They also show a reduction in traffic congestion. I whole heartedly support this bill to be passed to provide safer roads for all Oregonians!
