

Submitter: Lee Clark

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: SB422

As a lifelong motorcycle rider, I want to extend my support for the safety and wellbeing of motorcyclists that results from their ability to filter in traffic. The lack of enforcement on Oregon highways and freeways has made our roadways significantly more dangerous. Forcing motorcyclists to a standstill in dangerous traffic stoppages adds needless risk to those who use motorcycles to commute to work. It is well known to anyone who rides this nation's highways that stopping on a freeway tarmac creates an unacceptable risk of rear-end collision, a show-stopping existential threat to the motorcyclist.

Please show your support for this vital community by allowing them limited freedom of mobility to filter during traffic slowdowns and stoppages. Please vote yes on SB 422!

Thank you,

Lee Clark
