

Submitter: Robert Weeks

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: SB422

I commute from Camas to Hillsboro every day for work. Allowing lane sharing definitely does work to keep traffic flowing.

I'm 58 years old, and have commuted my whole life on motorcycles. Visiting California various times in my life has shown me firsthand how I can keep moving and avoid getting rear-ended by a vehicle.

In foreign countries motorcycles and scooters are not only encouraged to filter, but are EXPECTED to.

Done in a prudent manner, lane filtering is safer for motorcyclists and scooter riders all the way around.

Thank you
Bob Weeks.
