Committee: Senate Committee On Health Care

Measure: HB3258

Please vote No on this bill. I oppose further restrictions on pain patients and this bill could cause more bias and be interpreted that people in pain are suspected of harming their pets. This could justify a bias, if the state of Oregon (without proof) sets a precedent that says, we are worried that people in pain are deranged and will harm their pets for their medication. I also think it's wrong to include more in the PDMP when it will do nothing to stop an opioid epidemic that is caused by illegal drugs.

Thank you.
