

Submitter: Ashley Chesser

On Behalf Of:

Committee: Senate Committee On Natural Resources

Measure: HB3464

Dear Committee Members,

I am reaching out as a community member in Eugene and member of the organization Wild Farm Alliance in support of HB 3464. This bill streamlines beaver management into a single state agency, Oregon Department of Fish and Wildlife, instead of allowing for unlimited and unreported killing of the animal on private land.

I will also supply a document detailing how landowners can co-exist with beaver for your review.

Sincerely,

Ashley Chesser
Wild Farm Alliance
