

Submitter: Leslie Pohl-Kosbau

On Behalf Of:

Committee: House Committee On Rules

Measure: HB3414

Please do not pass this bill HB3414 that would remove protection for historic buildings and remove tree canopy in much needed heat zones. We must be careful in a rush to provide housing. There are sites that are now parking lots and areas of encampment that could host new low income housing for those needing it. Defunct malls and overbuilt office parks could provide spaces as well.
