

Submitter: Samuel Baker

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: SB422

I am an Oregon Motorcycle rider and I am in support of this bill. Lane sharing will decrease traffic congestion, and be much safer for riders such as myself not to have to sit between cars in slow traffic. I rode a motorcycle in California for years and the lane sharing available there was a very positive experience. I believe this bill will encourage more people to commute on a motorcycle, and therefore reduce emissions as well as traffic congestion.
