

Submitter: Tyler Philpot

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: SB422

This law was one of the few BIPARTISAN bills that made it to the governors desk a few years ago, only to be vetoed. Right the wrong and get it back to the governors desk.

This bill saves lives. The most dangerous place to be is stuck between a stopped vehicle and a distracted driver on their phone. Give us the ability to legally save ourselves.
