

Submitter: Daylan Sours

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: SB422

Hello and thank you for taking the time to read my testimony.

As a motorcycle enthusiast and avid user of motorcycles for transportation between work and home and or pleasure, I can say this bill would make myself much safer on the road. Being able to remove myself from a possible traffic collision, or move through traffic during extreme heat would be a real life changer. I hope you consider this bill as a necessity to everyone's traffic jam issues, and motorcycle safety issues. It would mean the world to see this bill pass.

Sincerely,  
Daylan Sours
