Measure: SB166

SB166 is another effort to hide truth and further divide Oregon over the subject of election integrity.

Oregon is big on passing laws to conceal information and convolute the election process.

Today 62% of Americans, and 45% of Democrats believe the 2020 election was stolen (Rasmussen).

After the 2020 election, some counties delivered ballot images for a nominal fee.

Once the cat was out of the bag that someone might be looking at the vote history astronomical costs were imposed by county clerks in order to prevent a fair examination under the guise of voter security when any identifying marker which might have been placed on a ballot by the voter violated Oregon statutes.

Passing this bill will further suggest that there were improprieties in that election making all elections suspect.

Your vote against SB 166 is a vote for America and fair elections.

Thank you,
