

Submitter: Dennis Boardman

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: HB3382

Testimony Opposed to HB 3382 5-16-23.

I oppose the bill and amendments to date because it waives compliance with land use laws and regulations carefully designed to protect our beautiful Oregon's environment. These laws have been developed with all stakeholders' input whereas HB 3382 intentionally excludes these laws and regulations.

I fear the Oregon Public Ports Association is being manipulated by uncaring financial interests to back this unacceptable bill.

Please reject HB3382 and current amendments.

Respectfully submitted.

Dennis Boardman
