

Submitter: Rebecca Roth
On Behalf Of: exposing election fraud
Committee: House Committee On Rules
Measure: SB166

Vote NO, NO, NO

This bill is a fraud. You claim that it will improve our voting, but we don't trust the system you already are using to steal elections, and this bill will just allow you to hide further information from voters, plus it empowers election workers to claim that we, the rightful owners of the election, are harassing them.

When Oregon has election results of 104% voted, there are not clean elections being conducted, and the people need to discover how to fix what you have broken.

SB 166--no self respecting believer in liberty should support this bill.
