

Submitter: Rae Cousens

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: HB3382

I Oppose HB3382 as it ignores compliance with state and local land use laws. I want ongoing jobs that provide family wages in our area but not by disregarding sustainability.

This bill undermines our community in the long term. We have regulations in place for the purpose of protecting our local resources. This bill is short term. It chooses possible private gain and discounts public oversight. It changes the law without regard to potential consequences.
