

Submitter: Donna Bleiler  
On Behalf Of:  
Committee: Senate Committee On Rules  
Measure: SB1045

I oppose SB 1045 for two reasons:

1. The summary sounds like it is something reasonable, but that is only half the bill, which is aimed at forcing the state's will on school districts. School districts are supposed to have options and flexibility to what makes their schools successful. As that has been slowly taken away, our schools have become more and more unsuccessful. It's time the state quit forcing policies and standard on school districts and forcing parents out of the picture.

2. It appears the Department of Education hasn't been given the opportunity to respond and make correction so this bill is premature.
