On Behalf Of:  
Committee: House Committee On Revenue  
Measure: HB3431

Good evening,

I am writing today to support the amendment to HB3431 which would utilized \$30m in general fund dollars to fund the EEIP program instead of cannabis tax revenue. This would leave funding for the vital work to implement Measure 110 untouched, while also facilitating the necessary investments outlined in HB3431.

Thank you,
