Lax Oregon election laws are ripe for fraud.
Transparency does not disenfranchise voters as some are claiming. In fact lack of transparency disenfranchises voters. Cast vote records does not affect the privacy or secrecy of a citizen's vote. Cast Vote Records only tells how the ballots (which is public record) come in and how they accumulate.
Asking for transparency and accountability should not be considered harassment or intimidation. The right to privacy when voting and transparency are not mutually exclusive.
Vote NO on SB 166
