Re: SB 775 Soil and Water Conservation District Board Eligibility

Chair Lieber and Committee Members,

I would like to submit this letter of support for SB 775.

SB 775 seeks to update the eligibility rules for soil and water conservation districts so candidates for zoned seats in counties with populations of over 250,000 do not have to own or manage at least 10 acres of land. We believe this is a long overdue update to the current statute.

? The statute that limits eligible candidates for zoned seats to those who own or manage at least 10 acres does not realistically address the needs of Soil and Water districts with larger populations and significant urban considerations when making policy decisions regarding soil and water health.

? This statutory update makes a lot of sense and is long overdue to bring the eligibility for candidates running for soil and water conservation district director positions in larger and more urbanized districts.

? There are no restrictions to run for any other special districts such as school boards, fire districts, etc., who are using public tax dollars in open elections on the ballot. I don't believe that the restrictions on who can run for

Thank you for your consideration,
Tya Ping
