

Submitter: Shawn Looney Looney

On Behalf Of:

Committee: Senate Committee On Rules

Measure: SB775

I am a resident of Multnomah County. I strongly believe that anyone should legally be able to run for Soil & Water Conservation District Director. It is an unfair practice to hold District Director candidates to the standard of ownership of 10 acres. Please update this outdated statute and allow for open elections. The rule is especially onerous in Multnomah County and other counties that have significant urban populations. Thank you.

Shawn Looney
