

Submitter: Claire Young

On Behalf Of:

Committee: Senate Committee On Finance and Revenue

Measure: SJR26

This is madness. We are in a recession and you are proposing taking more of the Oregonian people's money? Return the surplus to the people to take care of their own households and to re-invest in their communities. I have never seen so many mothers posting in Facebook groups about how they cannot afford to feed their children, and you want to keep more of their money? Horrible.
