

Submitter: Frank Blackston

On Behalf Of:

Committee: Senate Committee On Finance and Revenue

Measure: SB502

Do not take our kicker. If you had managed the finances better and stopped out of control spending on other programs, you would already have money for the wildfire fund. But no, Oregon House focused on other things instead of prioritizing this important need. Go back and find funds elsewhere, not our kicker. Talk to your colleagues about all the other high priced programs they are focusing on- see if they can give up some of their funds. Every time I turn around Oregon wants more money from its taxpayers. We are not an endless source of funds.
