

Submitter: Amy Schafer

On Behalf Of:

Committee: Senate Committee On Finance and Revenue

Measure: SJR26

To my legislators:

The proposal to keep taxpayer money that has been collected above and beyond the budgetary needs of the state is ABHORRENT.

This overage was collected from the people and must be returned to the people.

To deny returning these funds is outright theft.

You were elected by the people of our state to fairly represent the people to the best of your abilities, not to their detriment.

What precedent do you intend to set with this bill? Should the hard working people of our state hand over every bit of their earned pay and keep nothing? ABSOLUTELY NOT!

As a legislative body, you all should be looking to HELP the people of our state in their financial distress. We are all burdened under heavy taxation and a major recession that has caused unbelievable inflation. People are desperate to afford basic necessities.

Return the unused taxes to the people.

It is not the state's to keep just because you legislators want it.

Do what is right.
