

Submitter: Tyler Brookings

On Behalf Of:

Committee: Senate Committee On Finance and Revenue

Measure: SJR26

Oregonians are struggling daily and yet we work hard to improve our beautiful state. We pay these taxes to ensure it remains this beautiful for generations and in this clear hour of need, after we've done our duty, it is time for you to follow the constitution and return what is rightfully ours. Trickle down economics has never worked, and at the moment our legislature is incapable of appropriating funds correctly. By changing laws "just because" also puts no faith in our government. The people will put the money to use in the best possible way and continue to keep this state beautiful. Avoid the "trickle down economics" scam. Thank you.
