

Submitter: Mary Locke

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure: HB2571

Thank you for reading my submission. I bought an ebike during the pandemic after my car died. I was thinking that I would still purchase another car but my ebike has made that completely unnecessary. It's life-changing. I no longer have to psych myself up to bike 10 miles and I don't even care about the rain. I also use it to commute from my home in inner NE to my job in Beaverton. And I love it. And I bike through the West Hills. Others deserve this joy and a rebate can help them experience the same transformation I did. And it's better for the environment! And cheaper maintenance! And I don't have to pay for gas.
