On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure: HB2571

HB 2571 is an excellent way to promote a method of transportation that is more affordable than motor vehicles, reduces pollution of all sorts, improves congestion, provides a bit of exercise, and is a friendlier way to commute, run errands, or get kids to school.

E-bikes work in multiple environments, large and small cities, suburban neighborhoods, and rural areas.

This rebate will go a long way to helping people and communities thrive.

Thank you for your consideration of this imporant measure.
