Committee: House Committee On Climate, Energy, and Environment

Measure: HB2571

I would like to offer a suggestion for a potential incentive be added, similar to the 2009 federal Car Allowance Rebate System (popularly known as "cash for clunkers"). Specifically, if a person turns in an older car, a higher level of rebate may be applied, specifically to the purchase of a cargo bike. The assumption being that cargo bikes have the potential to be true car replacements.
